

## **Introduction to Exercise Science** MOVP 0100-006 Fall 2010

**Dr. Lynn Pantuosco-Hensch**

Phone: 572-8213 (O) 218-6857 (C)

Office: Woodward Center 228

Office Hours: MWF, 10:30am – 11:30am

Online Hours: Frequently, including  
Thursdays, 8pm-9pm

Email: lhensch@wsc.ma.edu

(use PLATO whenever possible)

### **Course Description**

Through observation and experimentation students will examine the cardiorespiratory, musculoskeletal and nervous systems of the body and the impact of exercise on their functioning. The effect of changing one's own personal exercise habits on risk factors for cardiovascular disease, longevity and quality of life will be explored.

### **Course Objectives**

As a result of this course, students will be able to understand and/or demonstrate the following:

1. The meaning of physical fitness and its importance to their individual health and public health in general
2. The effect of exercise on the cardiorespiratory, musculoskeletal and nervous systems
3. The ability to assess their own cardiorespiratory endurance, muscular strength, muscular endurance, flexibility, body composition and energy intake
4. The ability to interpret their assessment measurements and develop a safe and effective exercise program that follows the basic principles of training

- There will be open lab times on Tuesday nights when I will be available in the Woodward Fitness Center if you want assistance/guidance. Details will be announced in advance.

**Technology:**

- It is the student's responsibility to address any technology related issues through CIT (x8142) or Computer Services (xHELP).
- *NOTE: It is the student's responsibility to make initial contact with the instructor either via e-mail, phone or as directed in the course site. Student must have a valid working email address on file with the instructor. If a student has any special needs please contact the instructor directly for accommodations.*
